About ClinEast Healthcare UK Ltd.

ClinEast Healthcare UK Ltd. is a Marketing and Distribution company specialized in marketing and distribution of all products related to Oncology Patients, starting from high technology Targeted Therapy, Chemotherapy ending by nutrition and palliative therapies.

ClinEast Healthcare UK Ltd. represents the vital link in the healthcare system between UK and EU Pharmaceutical, Nutrition, Food Supplements And Medical Devices manufacturers and African Markets. Helping those manufacturers to expand their business to the African nations and countries either indirectly through a very strong network established by ClinEast Healthcare UK Ltd. with local distributors in Africa or directly through ClinEast Healthcare UK Ltd. offices in many African countries.

Stanmore Business and Innovation Center

With its Head Office located at Stanmore Business and Innovation Center in London, ClinEast Healthcare UK Ltd. aimed to be very close to all of its partners while handling all overseas business assignments in African countries.

ClinEast Healthcare UK Ltd. aims providing African nations oncology patients by unique and premium quality selected products that would change patients' lives and provide them a brighter future.

ClinEast Healthcare UK Ltd. is gathering vast of experienced calibers and senior managers driven from the roots of world's top Oncology and Chemotherapy companies around the globe, assuring a promising future business with all of its partners.

The following Products List is frequently updated upon being assigned by new partners. Please keep in touch with us to get the latest version of our Catalogue.

Provided SERVICES | ClinEast Healthcare UK Ltd.

ClinEast Healthcare UK Ltd. provides integrated full-fledged and diversified services for healthcare companies such as Pharmaceutical, Medical Nutrition, Food Supplements and Medical Devices manufacturers in UK and EU allowing them to penetrate and expand their sales in the African Continent.

ClinEast Healthcare UK Ltd. provides different business modules that fits all types of manufacturers in UK and EU, starting from exporting finished products in addition to Under License Manufacturing at world class sites in Egypt for lower production cost and easier accessibility to African price sensitive markets. Ending by providing all services related to constructions of Pharmaceutical Manufacturing Sites, Hospitals and Medical Centers.

1. International Business Expansion:

ClinEast Healthcare UK Ltd. has a very strong network of connections with healthcare and pharmaceutical distributors in many African countries. All of these distributors went through a very detailed assessments and evaluation process to make sure that they're capable of selling and promoting UK and EU made products efficiently.

ClinEast Healthcare UK Ltd. helps UK and EU based Pharmaceuticals, Medical Nutrition, Food Supplements and Medical Devices manufacturers to export their products to African markets, starting from evaluation of products, finding suitable markets for each, conducting all necessary quantitative and qualitative market researches.

In addition, **ClinEast Healthcare UK Ltd.** determines the best financial and business module, setting of all commercial agreements, and ending by regulatory and products registration process including tailored procedure for each market based on the local regulatory requirements.

2. Under License Manufacturing:

ClinEast Healthcare UK Ltd. management team noticed the relatively low presence of UK and EU based Pharmaceuticals, Medical Nutrition, Food Supplements and Medical Devices manufacturers in the African market, and after conducting all necessary market researches, they found that the main reason beyond this absence was the high price of products shipped directly from UK or EU to African markets which considered to be highly price sensitive markets. **ClinEast Healthcare UK Ltd.** provide a unique solution to overcome this burden while could be the first of its kind in the region. **ClinEast Healthcare UK Ltd.** provides Under License Manufacturing for Pharmaceuticals, Medical Nutrition and Food Supplements at GMP certified Egyptian manufacturing sites. These manufacturing sites has been deeply and precisely inspected by **ClinEast Healthcare UK Ltd.** to be capable of providing the same products quality and efficacy as produced in UK or any other EU based sites.

We Export API's and other inactive ingredients from the manufacturers to Egypt to be processed into the intended dosage forms. All of products are registered in at the Egyptian MOH to be legally exported to all African markets gaining the benefit of the following:

Low production cost.

- Same quality of EU and UK
- Affordable consumer prices.
- Benefit of Trading Protocols between African markets.

Provided SERVICES | ClinEast Healthcare UK Ltd.

3. Constructions of Pharmaceutical Manufacturing Sites, Hospitals and Medical Centers:

ClinEast Healthcare UK Ltd. provide services across the entire process from a single source. We offer complete consultation and execution business models ranging from site investigation and plant development to support and the preparation of official audits in order to assure obtaining all necessary quality certifications that related to the facility business scope.

Our implementation services include:

- Feasibility studies
- Plant development
- Site investigation
- Concept development
- Process simulation and optimization
- Benchmarking
- GMP / ISO
- Support / preparation of official inspections

Scope of Planning:

ClinEast Healthcare UK Ltd. provides world class services for the planning during all the planning phases of the project from design and design approval to implementation and assembly design. We are now in the process of establishing our own Pharmaceutical manufacturing site in one of the East African countries after our successful launching of our own multi-specialty Hospital in North Africa. We have the process and know-how for the production of all common forms of medication and medical products.

Provided SERVICES | ClinEast Healthcare UK Ltd.

Scope of Implementation:

On both bases, complete project planning and implementation or individual services for running of new projects, ClinEast Healthcare UK Ltd. provides the best solutions for any projects from early planning stages up to major turnkey project through a group of expertise in these fields. Quality and efficiency are always top of our list. With their interdisciplinary knowledge, our team of expertise are able to provide the optimum consultations and recommendations for every and each minor or major step in the project. ClinEast Healthcare UK Ltd. use tried-and-tested project management and implementation methodologies and work together with clients in integrated teams.
